

THE BROOKE TEACHERS.

President Goodnight, of the University, Takes Part

IN THE FINE COUNTY INSTITUTE

At the Third Day's Session, Much to Delight of All—The Enrollment Increased to Sixty-Seven—Increased Interest in the Exercises Each Day. Some Timely Themes Introduced Yesterday.

The Tuesday night's session of the Brooke county teachers' institute was held in the lecture room of the M. E. church. The meeting was opened by the singing of "Rocking on the Billows" by a quartette of young gentlemen.

Dr. Goodnight, the newly elected president of the West Virginia university, was then introduced and gave a most interesting and instructive talk on the subject of general education. He spoke especially of the complete work of the public school system of West Virginia, beginning as it does in the lowest primary school and ending with the state university. He called attention to the great advantages of our university, its splendid equipments, its thorough course of instruction in all departments, and its efficient corps of teachers. The course will compare favorably with that of any other university in the United States. He clearly showed the advantages of the educated man over those of the uneducated, everything else being equal. This is an age of intellect and refinement, and especially is this so in our own country. He urged on parents to send their boys and girls to our own state university. The doctor's talk was greatly enjoyed by all who heard it, and it will doubtless bring forth fruit by securing students from Brooke county.

Wednesday morning, the institute opened by singing "Auld Lang Syne" by the choir. Dr. Goodnight led in a fervent prayer. After singing and roll call, Miss Crothers, one of the teachers of Westburg school, presented the subject: "Physiology and Hygiene," to be followed, as follows: First, What to Eat and Why? second, What to Drink and Why? third, What to Wear and Why? fourth, How to Study; How to Play; How to Work; fifth, Show that Alcohol is a poison; sixth, Explain the poisonous elements in tobacco and describe its effects. An interesting discussion of the subject followed. Dr. Goodnight talked for some time making a number of very good points. Teaching is causing some one to know something, not already known. The conductor also spoke of the importance of teaching Physiology and Hygiene to the children. Use good common sense in all your teaching.

Mrs. Mitchell, assistant principal of the Westburg high school, told how she would give a lesson on the subject "The British Empire."

The entire exercise took a very interesting turn as the speakers referred to old ways and methods of teaching, such as singing, geography, the multiplication table, etc. From Mitchell urged that in all our teachings we should teach what should be known. In geography we should teach the general outline of countries, and then "fill in" with only what is important to know.

Mr. McCamie gave an interesting talk on history, taking "Jefferson's Administration" as his topic. He reviewed briefly important events of several years preceding that period, showing the power of Jefferson's personality on former administrations, i. e., Washington's and Adams'. He then named several important events in Jefferson's administration, such as: First, Louisiana purchase; second, amendment of the constitution concerning election of president; third, war with Tripoli and Lewis and Clark expedition; fourth, right of search and impressment of seamen; fifth, embargo act and non-intercourse act; sixth, Burr and Hamilton duel; seventh, Fulton and the steamboat.

The subject, "The Graded Course of Study for Country and Graded Schools," was opened by the instructor, who in a few words spoke in favor of the manual issued by our worthy state superintendent. He made the points: 1. It unifies the work of the system; 2. It gives a meaning to education; 3. It insures a continuous progress of the pupil under different teachers; 4. It gives something for the pupil to expect as a reward for his work.

The subject was discussed by quite a number of teachers and visitors. Parents may antagonize the teacher's efforts to properly grade his school, but the teacher may generally overcome this difficulty or antagonism by visiting the parent and having a proper understanding of the matter. This point was brought out by Mr. Kemp, who suggested that the teacher should avoid antagonizing the parent without a proper effort to secure his co-operation.

Miss Huff introduced the subject of technical grammar, taking the infinitive, showing where used as noun, as an adverb and an adjective. After quite a little discussion of the subject, noon recess was taken.

At 2 o'clock p. m. the county superintendent called order. "Home, Sweet Home" was sung by the choir. The county superintendent gave a short talk, urging the teachers to do their very best work all the time, let what may be the salary.

The illustration of the Pollard system of teaching was further illustrated by a class of boys and girls, who have just finished the third reader, or beginners in the fourth reader. The children showed great proficiency, answering many questions asked by the teacher. They also gave an example of learning different sounds by singing. Great interest was taken in the exercise by all present.

The subject, Psychology, was introduced by Miss Virginia Rickety. The special subject was Memory. To properly cultivate the memory three things are necessary, i. e., attention, repetition, association. It is a great deal better to learn a thing by means of the reasoning powers than by memory. It is better to remember words and sentences without understanding their meaning. Imagination and memory are closely related. Imagination feeds on memory. It is the mind's creative faculty.

Mr. Gullett in further discussion of the subject took the position that we cannot imagine anything of which we do not know the constituent parts.

Prof. Mitchell spoke of the teaching by association.

The county superintendent and the instructor spoke on the subject of mnemonics.

Dr. Goodnight gave a general talk on the subject of psychology. He outlined his talk on the board as follows:

Mind consists of the faculties, 1. Sensibility, 2. Intellect, 3. Will. Under the head of Intellect we have (a) memory, (b) attention, (c) repetition, (d) association, (e) imagination, as powers of the intellect. The doctor's talk showed

that he has given deep research. The question was asked: Do we get all our knowledge through the medium of the senses? The doctor answered no.

Mr. John Haleson, secretary of Buffalo district, talked to the teachers concerning the making out of their reports. It is very necessary that the secretaries have their reports correct, so that the county superintendent can make his report as it should be made.

The conductor spoke on the "Management of Disorderly Schools." He gave quite a number of his personal experiences in teaching disorderly schools or rather he controlled disorder in school. Dr. Goodnight followed in the same strain—giving personal reminiscences of his first days of teaching. This was the doctor's last talk and it is with regret that the teachers part with him. He has created a good impression and his visit will no doubt result in students from the county of Brooke going to the university. All unite in saying that the doctor's visit has done them good. The enrollment is now sixty-nine.

THE TURNERS' BIG DAY.

The Wheeling Society Celebrates Its 43rd Anniversary in Great Shape at Wheeling Park.

Yesterday the Wheeling Turnverein celebrated the forty-second anniversary of its foundation with a festive and athletic exhibition at Wheeling park. The members have made great arrangements for this occasion, and it was in every detail as fine a success as the most sanguine could hope. The weather could not have been improved if made to order. Early in the forenoon a large number of visitors arrived from Steubenville, and delegations also came from the South Side, Pittsburgh, and other places. Turn teacher Fritz Koch was in the Pittsburgh party, and Turn Speaker Max Giescheider accompanied the Steubenville delegation, with which also came a number of ladies. Messrs. W. Schambra and Joseph Weisgerber met the visitors at the trains and they were escorted to their stopping places. At 1:30 p. m. the home and visiting Turners met at the Turn hall, where a parade was formed, led by the Opera House band and headed by the active Wheeling members in their neat gray uniforms. In the rear were several of the old Turners in carriages. The line of march was by Tenth and Main streets to Twelfth, to Market, to Sixteenth and to the Elm Grove station, where cars were taken to the park.

There a very large crowd of people spent the day and evening, not returning until a special train at midnight. Dancing and social amusements consumed most of the day, but at 4 p. m. there were athletic contests for prizes, the committee of judges in charge consisting of F. Koch, of Pittsburgh, and C. Neubauer, of Steubenville.

The contests were decided as follows: First group—First prize, Will Lobenstein, an umbrella from M. J. McFadden; second, Ed Brandfass, athletic shoes, from Alexander; third, Ed Vaas, a box of cigars from Munn & Brandfass; fourth, R. Kraft, gold cuff buttons, from the I. G. Dillon, Wheat & Hancher Co.; fifth, L. Welch, of Steubenville, a box of cigars, from Will Welty.

Second group—First prize, L. Welch, Steubenville, umbrella, from Joseph Winkindorfer; second, Will Lobenstein, shirt stud, from R. E. Schubart; third, Ed Brandfass, shaving set, from Martin Roggaber; fourth, George Wilhelm, hat, from Dinger Bros.; fifth, R. Kraft, pocket knife, from T. A. Hoge.

On points of two groups combined, sixth prize, George Leo, Steubenville, fine belt from the Hub; seventh, Chris Schrambra, box of cigars from Hugo L. Loos; eighth, Harry Burke, foot ball from Carl Bros.; ninth, Louis Bartons, briar pipe from Brandfass & Case; tenth, Frank Straupp, set of books from F. Stanton; eleventh, Joe Kurtz, box of toilet soap from Louis Noll; twelfth, Leo Sullivan, belt from W. Burke; thirteenth, Phil Schrambra, umbrella from the Racket; fourteenth, H. Friederichs, bottle of wine from P. Welty & Co.; fifteenth, David Aaron, meerschaum pipe from Brandfass & Case; sixteenth, Charles Miller, silk suspenders from C. P. Schambra & Son.

Some of the records made were as follows: R. Kraft, pole vaulting, 8 feet 1 inch. Will Lobenstein, putting 35 pound shot, 20 feet 9 inches. R. Kraft, high jump, 5 feet 2 inches. Will Lobenstein, hundred yard dash, 11 seconds. Ed Brandfass, long high jump, 10 feet by 4 feet high. The running broad jump was 17 feet 8 inches. Prof. Koch gave a very fine exhibition of pole vaulting, making a record of 9 feet 6 inches.

The day was one of the most successful in the history of the Turnverein, and the exhibitions were much admired.

ABOUT PEOPLE.

Strangers in the City—Wheeling Folks Abroad.

F. C. Percival, of Sistersville, figures on the register at the McLure.

Mrs. E. B. Booth, of Manington, and daughter are arrivals at the Stamm.

Misses Eliza and Jennie Stewart, of Sistersville, are guests at the Stamm.

C. B. Chancellor, of Parkersburg, was in the city yesterday, a guest at the Stamm.

Hon. George W. Boss, of Belmont, a well known Pleasant county Republican, is in the city.

Mr. A. S. Hearn, of Dodgeville, Wis., was in the city yesterday on his way to his old home at Cadiz, O.

Milton Myers, of Philadelphia, a well known traveling man, is in the city and autographed at the McLure.

Miss Effie Hammond, of the Island, left Monday for an extended visit with her sister, Mrs. Charles Osborne, of Brooklyn, N. Y.

J. H. Summers, of Cleveland, general manager of the Wheeling & Lake Erie coal mines at this end of that line, is in the city on a business trip.

Miss Lucille Rodefer, of Bellaire, O., until recently a student at Martin's Shorthand School, Pittsburgh, Pa., has entered the Seguin Business College for a full course in book-keeping, shorthand and typewriting.

S. F. Hayden, of Fort Scott, Kas., now a conductor on the big Missouri Pacific system, formerly a conductor on the old Bellaire & South Western, is in the city en route on an eastern trip. His many old friends were glad to meet him.

A. F. Wilmoth, of Kerens, W. Va., a school book and furniture salesman, is in the city. Mr. Harry Black, of St. Paul, city editor of the St. Paul Globe, formerly of the Wheeling Register, will be the guest of Mr. Wilmoth, who is his brother-in-law, at his home in Kerens.

T. J. Vandergrift, of Jamestown, N. Y.; John M. Patterson, of Pittsburgh; Charles Ingfield, of Pittsburgh; C. O. Wolf, of West Findlay, Pa.; J. H. Dickey, of West Alexander; William Johnson and S. D. Robinson, of Pittsburgh, formed the oil men's colony at the McLure yesterday.

A good appetite and refreshing sleep are essential to health of mind and body, and these are given by Hood's Sarsaparilla.

THE WAGE QUESTION

Was Considered in a Casual Way Yesterday by the Pottery.

SENTIMENT IS FOR AN ADVANCE

In Wages For the Ensuing Year—The Probable Consolidation of the Three Pottery Organizations—A Committee to be Named to Confer With Other Organizations—Yesterday's Proceedings.

Yesterday was the third of the annual meeting of the National Brotherhood of Operative Potters of the United States now in session in this city. The sessions were held in the hall of the Ohio Valley Trades and Labor Assembly and were attended by more delegates than any of the previous meetings, fully one hundred being present when the morning session was called to order at 8:30 o'clock.

A considerable portion of the morning session was devoted to the consideration of the report of the committee on law. The committee's report recommended several changes in the constitution and rules of the organization, and was adopted by the brotherhood. Representatives of the two other pottery organizations, the National Pottery Union, the organization that includes the workmen east of the mountains, and the Sanitary Pottery Union, made up of the sanitary workers of the country, were present, and the question of the proposed consolidation of the three organizations into one strong united pottery union, was discussed at length. The sentiment was strongly in favor of combination, which was practically decided upon. Before the consolidation can be accomplished it will be necessary for each of the unions to name committees, which will meet in conference and decide the terms and conditions of the union. The brotherhood will name its committee before the present meeting adjourns to-day or to-morrow.

The brotherhood at its afternoon session adopted a uniform parade badge and button and created the office of national statistician, which will be filled to-day when the new officers are elected.

The wage question came up in a "casual" way as one of the delegates put it and it is probable that the brotherhood will take action on this matter before adjournment. The opinion of all the delegates is that the manufacturers are now in a position to restore wages to the figures of the scale in force before the conference of manufacturers and workmen at Washington in May, 1894.

The greater part of the afternoon session was taken up with various minor matters, as a committee of the whole.

A large party of the visitors under the guidance of Mr. William La Touche, chairman of the local reception committee, visited the city gas works, city electric light plant, the Wheeling ice plant, the city building and other points of interest. Another party conducted by Mr. William Nesbitt, of the reception committee, visited the various city fire department stations and other places in and about the city.

Yesterday the delegates received an invitation to visit and inspect the big factory of the Bloch Brothers' tobacco company, on Forty-first street, where the famous "Mail Pouch" tobacco is prepared. It was accepted and the visit will be made this morning.

GROCERS AND BUTCHERS

Engage in a Tiff Regarding the Sale of Meat by Grocers.

The little tiff engaged in by the butchers and grocers of this city regarding the propriety of the grocers engaging in the sale of fresh and smoked meats is getting pretty hot. Yesterday's principal development was the agreement entered into between the grocers and a number of wholesalers of meat, by which the latter agree to furnish the grocers with supplies as heretofore. The wholesalers that entered this agreement are F. Weimer & Sons, Home Dressed Beef Company, George Zoelcker, Wheeling Beef Company and Cleveland Provision Company. This agreement was brought about at a conference between a committee of the strong Retail Grocers Protective Association and representatives of the wholesale houses named.

Last night a secret session of the Retail Butcher's Association was held at their rooms in the Odd Fellows' hall, at which time the matter was under discussion. The meeting was an extended one, lasting until nearly midnight, but the action taken, if any was taken, could not be learned.

Notes On Navigation. The Lexington will be to-day's regular Matamoras packet, leaving the wharf at 11 a. m. The Liberty will depart in the afternoon for Clarington.

The marks at the public landing last evening showed 5 feet and slowly falling.

THE RIVER MARKS.

Morgantown—River 6 feet 6 inches stationary. Weather clear and cool.

Greensboro—River 7 feet 8 inches and stationary. Weather fair and cooler.

Warren—River 1 foot 4 inches and falling. Weather clear and cool.

Oil City—River 2 feet 2 inches and falling. Weather clear and cool.

Steubenville—River 3 feet 10 inches and falling. Weather clear and warm.

Don't Get Excited

Was what the doctors told me, and they said I must not run, on account of stout.

tering of my heart. I was sick over a year with dyspepsia, could not sleep or eat in comfort, was generally miserable.

Hood's Sarsaparilla gave me refreshing sleep, steady nerves and better health than ever. I have great faith in Hood's. H. H. PRICE, Reading, Pa.
